Credentialing Experts

Double Check For Accuracy

Process Tracking

With automated processes, and cloud enabled technologies, we are offering a smarter physician credentialing service.

A team of expert credentialing specialists and consultants has been providing centralized credentialing service to practices.

Our experts double check each document for accuracy which reduces any delays caused by an incomplete dossier.

We maintain a checklist of documents, important dates, and properly follow up every application to keep track of the process.

CAQH REGISTRATION

Our credentialing experts will help you register with CAQH by filing your details, reviewing it and attesting its accuracy.

NPI REGISTRATION

Giving physicians a nationwide identity by helping them register with the National Provider Identifier (NPI).

We provide physicians, assistants, nurses, or any other healthcare provider the fastest way to enroll with Medicare.

MEDICARE ENROLLMENT FOR GROUPS

Medicare enrollment for physician practice groups, laboratories, paramedics, hospitals and large volume of applicants.

MANAGEMENT OF ALL CREDENTIALS

We manage all types of credentialing including commercial and government payers and keep your information updated.

We collect all the required documents including educational certificates, experience, current CV, state licensure information and current address.

All the payers and insurance companies crosscheck your credentials with CAQH database. So, we make sure that your information with CAQH is up-to-date.

We keep track of the application progress with a comprehensive checklist of dates, in order to make sure that you get enrolled without any delay.
