Increased Cash Flow

Account Receivables management service that has been specifically designed to increase the cash flow of physician practices.

Faster Collections

Our efficient AR system keeps track of every invoice, outstanding payments and your earnings would never fall through the cracks.

Improved Productivity

You don’t have to worry about financial management because we would assist you and teach your staff AR management.

Daily Aging Track

We would classify pending bills with date tags to make sure that no payment claim is too old to get paid by the payers.

PATIENT STATEMENTS

Bill your patients efficiently and get returns without any delay. Lowest pending payments and patient deductibles.

MANAGING AR WITH PATIENTS & INSURANCES

Effective management of all Account Receivables with patients and insurance companies to increase your revenue.

INSURANCE RESOLUTION

Stop worrying about aging receivables and denied payments, our AR management service will report all the money owed.

AR REPORTS

Monthly AR reports and balance statements will help you get a clear picture of your practice’s financial health.

We track all outstanding bills and pending payments wether they are due with insurance companies or unpaid by the patients.

An organized follow-up strategy helps to reduce the payment denials. We check through the reasons and follow up after fixing the reasons.

We classify AR aging in 30-60-90-120+ days, and post the reports to clearly make you understand the financial health of your practice.

Stay in control of your finances with a clear understanding of your accounts and receivable aging reports. Analyze the AR reports and take informed decisions to calibrate the way you practice.
